

Application of Sun Screen Policy

Policy Statement

Mereworth Pre-School required all children during appropriate weather to have sun screen applied prior to starting a session. However, if a Child attends who has not had sun screen applied to their arms, leg, neck and face staff will apply some to prevent skin damage. Two members of staff will be present when applying the sun screen. The pre-school will use a sensitive sun screen with a factor of not less than 30.
